CANDIDATES SEEK OFFICE AT SEARS

CITIZENS' AND PEOPLE'S PARTIES ARE TO CONTEST FOR AP. PROVAL OF VOTERS.

Simon Poshiman and H. A. Clevenstine Want to Be Village President-One Ticket at Milan.

Saturday was the last day for filing numinating petitions in Sears for the primaries March 9. The election ocours April 20. Although the annexathan proposition is to be voted on April 20, the annual election of village officers will take place on the same day. Should the project to unite the two communities carry, the new officials would be automatically re-

Both the citizens' and the people's parties have tickets in the field. The terms of Simon Foehlman, president, and W. S. Pate, John Bleuer and F. W. Mooney expire.

Those who have filed petitions are Citizens'-President, Simon Poehlman trustees, W. S. Pate, William Burnett, Stanley Norton.

People's-President, H. A. Clevenetine; trustees, D. W. Gitt, R. K. Kinner, Charles Hardin.

In Milan.

In Milan there is but one ticket in the field for village offices the independent. The terms of Dr. W. L. Eddy, president, and William Nichols, W. R. Brown and Merle McCullough expire. The hold-over members are George Brown, Harry Rathbun and

The candidates for nomination who have filed petitions are:

President-C. S. Thompson. Trustees-William Brown, W. beittker and Frank P. McMichael.

POULTRY TIPS.

Those who live in towns and vil lages are forced to keep their chick ene penned for obvious reasons, and the woman who wishes to be success under these conditions should hoose a breed that can stand con

All kinds of bantams can be kept in small enclosures the year round, and some are good layers, but their eggs are very small. These miniature specimens of the feathered tribe make unning pets, and both stock and eggs bring as high prices as other chickens.

Both Hamburgs and Black Minorcas seem to thrive in small quarters. The first named will perhaps lay the great er number of eggs, while the latter will more than make up in size all hat is lacking in number. Both breeds are small and belong to the non-set-

The poultry raiser feeds her flock for There is no guesswork about E. She knows what to feed to induce see inving: she knows that to fatten her fowls and get them ready for market quite a different ration is She has found out that growing chicks which are making feen, bone, muscle and feathers at the same time, need a varied diet of the most nourishing foods.

A Pennsylvania poultryman feeds his turkey poults this ration: The positie are fed no food until a day old, in nature has profided for them, but water and sand are placed within reach. The food is not of the sloppy wind, us that leads to bowel trouble and they do not thrive on it. Stale bread printened and squeezed dry is fed. Onlen tops minced fine is fed each by while in confinement. Corn bread given when two weeks old, and later cracked corn or wheat is pro-

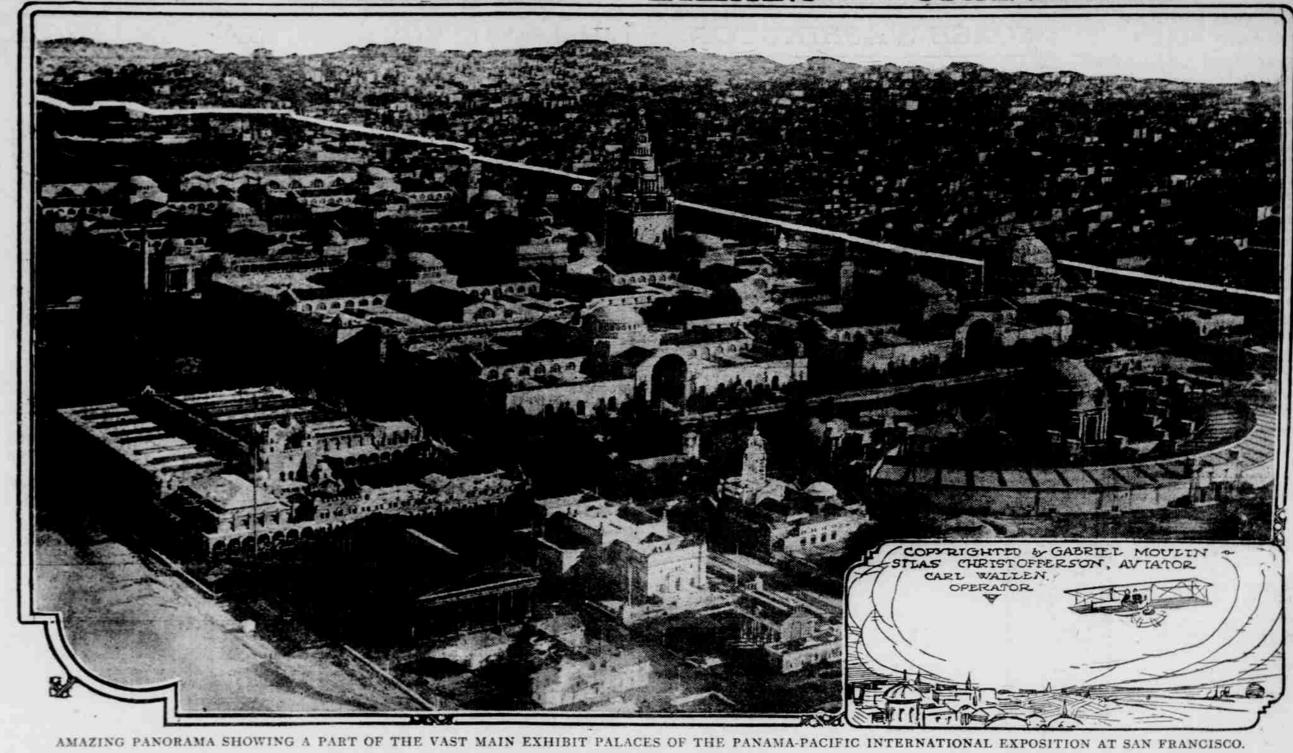

The stamina of the flock is the anshor rock of success in poultry raisint it is secured by carefully selecting the best of each brood. An unusually promising cockerel or pullet is carefully looked after. There is a distinguishing mark made in the web of their feet. A record is kept of those marked, making it easy and sure to select them when wanted for breeders. Eurs are saved from these best here for incubation. This careful He stillty.

AMERICA'S MIGHTY PANAMA-PACIFIC INTERNATIONAL EXPOSITION AS SEEN from an AEROPLANE ARE YOU GOING TO SEE IT? MATEONS OF WORLD

In the center of the photograph, which was taken at an elevation of 1500 feet, rises the colossal Tower of Jewels, 435 feet in height, or as high as the average thirty-five story city block. Directly in front of the tower is shown the superb Court of the Universe, one of the most notable features of the vast exposition city. On the extreme right of the photograph is seen the great circular Palace of Fine Arts, eleven hundred feet long in its extreme length, built at a cost of \$600,000. Here the world's choicest treasures in art are being exhibited.

Reading from left to right in the center group the large building on the extreme left is the Palace of Machinery; next comes the Palace of Mines and Varied Industries; next the Palace of Transportation and Manufactures; next the Palaces of Agriculture and Liberal Arts; next the Palaces of Food Products and Education; on the extreme right is seen the circular Palace of Fine Arts. In the foreground on the left is the great California Building; next in the foreground is the Oregon Building whose columns comprise mighty fir logs; next is the New Jersey Building; immediately to the right of the Oregon Building is the New York Building and still further to the right the Pavilion of the Netherlands. The exposition palaces are the loftiest and most impressive ever built. Forty-one nations are participating in the exposition on an unparalleled scale.

HOW GERMANY HOPES TO STARVE ENGLAND

This map shows the naval war zone proclaimed by the German admethod of selection can soon be made miralty. The heavy black line around the British Isles, including the Shetto build up a flock's unformity and at land Islands, the English channel and the greater part of the Dutch coast the same time wonderfully increase incloses the area in which Germany warns neutral ships to beware. The dotted lines around Scotland and the Shetland Islands, to the North sea, the Baltic sea and the "safe" part of the Netherlands indicate the safety In not think that you should give routes American ships may take. The German submarine bases in Germany and Belgium are designated by stars.
